

Benefits

- Flooring can usually be installed 30 days after placement of concrete
- Unmatched comprehensive ten year warranty
- Requires NO moisture testing
- No project delays due to moisture vapor emission
- No financial catastrophe due to remediation and lost opportunity cost
- Compatible with all floor coverings, adhesives and coatings
- Inhibits mold and bacteria growth with integral anti-microbial biocide
- Requires only 1 day wet curing
- As of 2009, 5 and ½ years without a failure
- Contributes several points toward LEED Certification
- The most economical insurance against moisture vapor emission

**WITH BARRIER-1 IN THE CONCRETE,
THE ROUTE OF MOISTURE VAPOR EMISSION IS
ELIMINATED.**
